Colours, materials and textures that convey purity in the quest for balance and serenity.
Neutral Revelation

Linen #E684. Linen, an age-old fabric that brings to mind decorative notes and generations. A creamy, slightly yellowish white that evokes sensations of tenderness, softness and well-being.

Greige #E683. The ideal proportion for a neutral, evokes balance. A blend between grey and beige, perhaps influenced by the French word “grège” which means “raw silk”.

Taupe #E679. An unconditional presence in style and decoration. A colour between black and grey. The word derives from the French which means “mole”.

NEW Lava Stone #E716. Strength, consistency and personality. Lava Stone is a colour that explodes from the earth with the mighty roar of a volcano before settling back into a state of peaceful repose.

NEW Hygge Grey #E715. Hygge is well-being, the creation of environments of comfort and light that foster relaxation and comfort. The home is the most welcoming place in the world.

NEW Causeway #E717. A very solid dark grey, inspired by the magnificent basalt columns of the Giant’s Causeway on the north coast of Ireland.

Alpaca Grey #E680. Alpaca, a wonderful wool in 22 natural colours... our favourite is the light grey that inspired this shade that will dress the home in a natural, refined fashion.

Stromboli #E677. It’s called Stromboli and it’s a warm, slightly purplish grey, inspired by the rock from the Italian volcano of the same name.

Simply Grey #E676. Simply neutral... that’s how it is! A medium grey, with the touch of sophistication that is ideal to balance out the decor.

Carrara White #E675. The natural elegance of the famous Carrara marble inspires this refined, slightly greyish white.

Blue Revelation

One can lend colour to calm and intensity, to stillness and movement, to rest and vitality.
Mare Nostrum
A Latin expression which, through this colour, conveys the history, colour and heritage of a sea that belongs to us all. A unique blue, the colour of the Mediterranean.

NEW Navy Blue #E722. A blue that brings to mind the freshness of the high seas. A blue that will never go out of fashion and always at the cutting edge of fashion.

NEW Amethyst #E723. Its magnetism draws all eyes towards it. It conveys magic, beauty and elegance like an amethyst, the most precious violet gem.

Into the Blue #E416. This is that blue of the immersive sky that takes us farther away into the universe. Sometimes, it’s the blue of the sea, of peace and of air. Breathe deeply.

Seascape #E720. A chromatic depiction of blue that no one looks at with admiration and that moves everyone... the blue of the sea and the seascape.

Blue Cedar #E721. From the French for teal. A slightly tinted blue on the horizon, bordering between blue and green, originating in the typical colour of the feathers of certain ducks.

Petrol Blue #E722. This is our petrol blue! Rich, deep and dark, permanently shifting between blue and green. Magically undefinable.

Blue Mountains #E724. Inspired by the blue and subtle melancholy of the Australian mountain landscape, listed by UNESCO as World Heritage, this blue leaves its mark on every space.

Sea Clay #E723. A natural colour, inspired by sea clay, thousands of years old. A greenish-grey tone that fills up space in a balanced way.

NEW Glassy Blue #E721. A soft mineral blue almost transparent. A calm and imperturbable color, able to create an atmosphere of eternity around us.

**Colour is for everyone**
Always at the forefront of colour and innovation, CIN has adopted the universal colour code for the colour blind, Color ADD®. This is a monochrome graphic code that enables the colour blind to identify colours in a quick and simple way through a process of logical association that is easy to memorise. The code starts using primary colours (blue, red, yellow) represented by symbols, which are then composed into secondary colours.

Two more shapes are added to the primary colour symbols to represent white and black. When combined with other colours, these will turn them either lighter or darker.

**Selecting the colour is one of the most import**
Selecting the colour is one of the most important moments when decorating a space, CIN is aware of this, and has made every effort to ensure faithful reproduction of the colours in this catalogue. However, due to the limitations of printing techniques, the colours may show differences from the original. We recommend, therefore, making a colour test on the surface to be painted before any final application using TESTiT. The test enables customers to make an informed choice and CIN is not respon-
